ALGORITMA DAN STRUKTUR DATA MODUL 1

1.

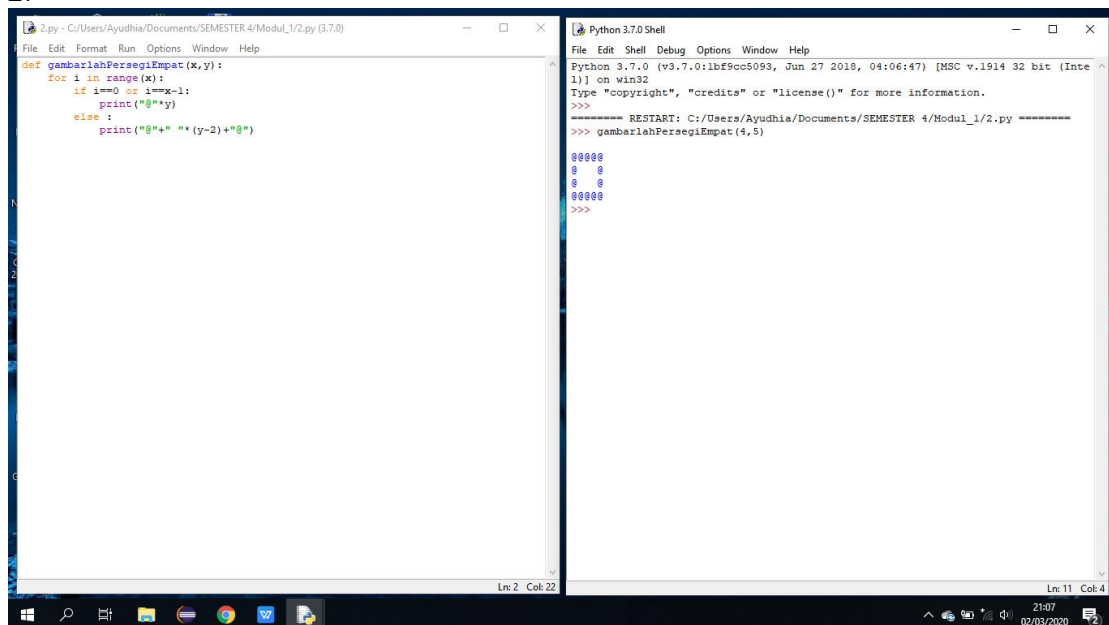

The screenshot shows a Python IDE with two windows. The left window, titled '1.py', contains the following code:

```
def cetakSiku(x):  
    x = 5  
    for i in range(0, x):  
        for j in range(0, i+1):  
            print('*', end='')  
        print('')
```

The right window, titled 'Python 3.7.0 Shell', shows the execution of the program. It displays the output of the function `cetakSiku(5)`, which is a square of asterisks:

```
>>> cetakSiku(5)  
*****  
*  
*  
*  
*  
*  
>>> |
```

2.

The screenshot shows a Python IDE with two windows. The left window, titled '2.py', contains the following code:

```
def gambarLahPersegiEmpat(x,y):  
    for i in range(x):  
        if i==0 or i==x-1:  
            print("0"*y)  
        else:  
            print("0"*i+" "*(y-2)+"0")
```

The right window, titled 'Python 3.7.0 Shell', shows the execution of the program. It displays the output of the function `gambarLahPersegiEmpat(4,5)`, which is a diamond shape:

```
>>> gambarLahPersegiEmpat(4,5)  
00000  
0 0  
0 0  
00000  
>>>
```
